CLINTON MUNENE

Nairobi, Kenya | clintonmunene2000@gmail.com | +254 118999569 | linkedin.com/in/clinton-munene

PROFESSIONAL SUMMARY

Results-driven Data Scientist with 2+ years of experience leveraging Python, machine learning, and business intelligence tools to transform complex datasets into actionable insights. Proven track record of building predictive models and interactive dashboards that drive strategic decision-making across government, agriculture, and financial sectors. Strong expertise in statistical analysis, data visualization, and market research with demonstrated ability to deliver measurable business improvements.

CORE COMPETENCIES

Machine Learning & Predictive Analytics • Python (Pandas, NumPy, Scikit-learn) • Data Visualization (Power BI, Tableau) • Statistical Analysis & Modeling • SQL & Database Management • Business Intelligence • Financial Analysis • Market Research • A/B Testing • ETL Processes • Data Mining

TECHNICAL SKILLS

Programming Languages: Python, R, SQL

ML/Data Science: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Machine Learning, Predictive Modeling

Business Intelligence: Microsoft Power BI, Tableau, Excel (Advanced)

Statistical Analysis: Regression Analysis, Hypothesis Testing, Time Series, Statistical Modeling, A/B Testing

Tools & Platforms: Jupyter Notebook, Git, Google Analytics, Database Management

PROFESSIONAL EXPERIENCE

Data Scientist

State Department of Housing and Urban Development | Nairobi, Kenya | January 2026 – Present

- Analyze housing and urban development data to inform policy decisions and strategic planning initiatives for government housing programs
- Develop predictive models to forecast housing demand and urban growth patterns across Kenya using Python and machine learning algorithms
- Create automated reporting systems and interactive dashboards using Power BI to track key performance indicators for senior management
- Collaborate with cross-functional teams to identify data-driven solutions addressing urban housing challenges

Market Research Intern

Agriculture and Food Authority | Nairobi, Kenya | November 2024 – April 2025

- Conducted comprehensive market analysis across 15+ regions to identify optimal locations for agricultural produce collection centers, resulting in strategic recommendations adopted by management
- Built capacity for 50+ stakeholders through training workshops on market potential assessment and value addition technologies
- Designed and implemented data collection frameworks using surveys and statistical analysis to evaluate market opportunities for smallholder farmers
- Analyzed supply chain data to identify inefficiencies and recommend market-driven innovations, improving operational efficiency
- Organized 8 product promotion activities that enhanced market penetration for agricultural products through data-driven targeting

Freelance Data Analyst

clintech | Remote | January 2024 – October 2024

- Developed machine learning models (linear regression, decision trees, clustering) to analyze business trends for 10+ clients, informing strategic planning and revenue optimization
- Built 15+ interactive Power BI dashboards that improved client sales by 20-30% through enhanced visibility into sales patterns, customer behavior, and inventory management
- Analyzed financial data for clients across retail, hospitality, and services sectors, preparing comprehensive reports providing actionable insights into revenue streams and profitability
- Automated data pipelines using Python (Pandas, NumPy) reducing manual data processing time by 60% and delivering insights 40% faster than traditional methods
- Conducted A/B testing and statistical analysis to optimize marketing campaigns and pricing strategies, resulting in measurable ROI improvements

Financial Advisor

CIC Insurance Company | Nairobi, Kenya | October 2023 – January 2024

- Provided personalized financial planning and investment recommendations to 30+ individual and corporate clients using data analytics
- Analyzed client financial portfolios to identify optimization opportunities and risk management strategies, achieving 95% client satisfaction rating
- Prepared detailed financial reports and projections using Excel and financial modeling techniques for informed decision-making

KEY PROJECT

Mobile App vs Website Analysis | *clintech*

- Built multiple linear regression model using Python (Scikit-learn) to analyze 10,000+ user interactions across mobile and web platforms
- Created comprehensive data visualizations using Matplotlib and Seaborn to present findings to stakeholders
- Delivered actionable recommendation that guided $50K+ technology investment decision; analysis revealed mobile app users had 35% higher engagement rates, leading company to prioritize mobile development

EDUCATION

Data Science Certificate | Safra Data School | 2022 – 2023

Focus: Machine Learning, Statistical Analysis, Python Programming, Data Visualization, Business Analytics

Bachelor of Science in Applied Statistics with Computing | Maasai Mara University | 2018 – 2022

CERTIFICATIONS

Data Analytics Bootcamp (Alexander Freberg) | Add other relevant certifications here

LEADERSHIP & VOLUNTEER EXPERIENCE

Mentor, Cohort 4 | Moringa School | January 2026 – Present

- Mentor 15+ aspiring data scientists in Python programming, statistical analysis, and machine learning; conduct weekly code reviews and provide career development guidance

IT Attache | The National Treasury Kenya | August 2022 – November 2022

- Provided technical support across 5+ departments, resolving 100+ support tickets; assisted in network troubleshooting reducing downtime by 25%; processed and validated 10,000+ records with 99.5% accuracy
